OUR STORY

SINCE 1959

Avon Marine welcomes you to its new collection.

Founded in Bradford, UK on our fine traditions of quality, value and pursuing our program of flair and innovation, **Avon Marine** has produced over 200,000 tenders and rigid inflatable boats (RIB). Nearly 60 years of experience producing first-class hand-built products has led **Avon** to be recognized as one of the most premium inflatable products on the market.

In 1998 the company was purchased by Zodiac, the world's largest manufacturer of inflatable boats. The partnership

with Zodiac has allowed for both companies to flourish as they were able to combine resources to develop premium products and shared technologies such as removable tubes.

Avon products are available globally from an international dealer network of distributors and agents, and are serviced by a comprehensive network of locally convenient service stations that provide expert after sales support for our customers.

Avon Marine is now proudly manufacturing RIB's in the USA.

THE AVON SEASPORT SERIES HAS BEEN SPECIFICALLY
DESIGNED TO COMPLEMENT YOUR YACHT.

Avon Marine, a Zodiac Nautic Group brand, proudly announces the **Seasport Deluxe** tender range.

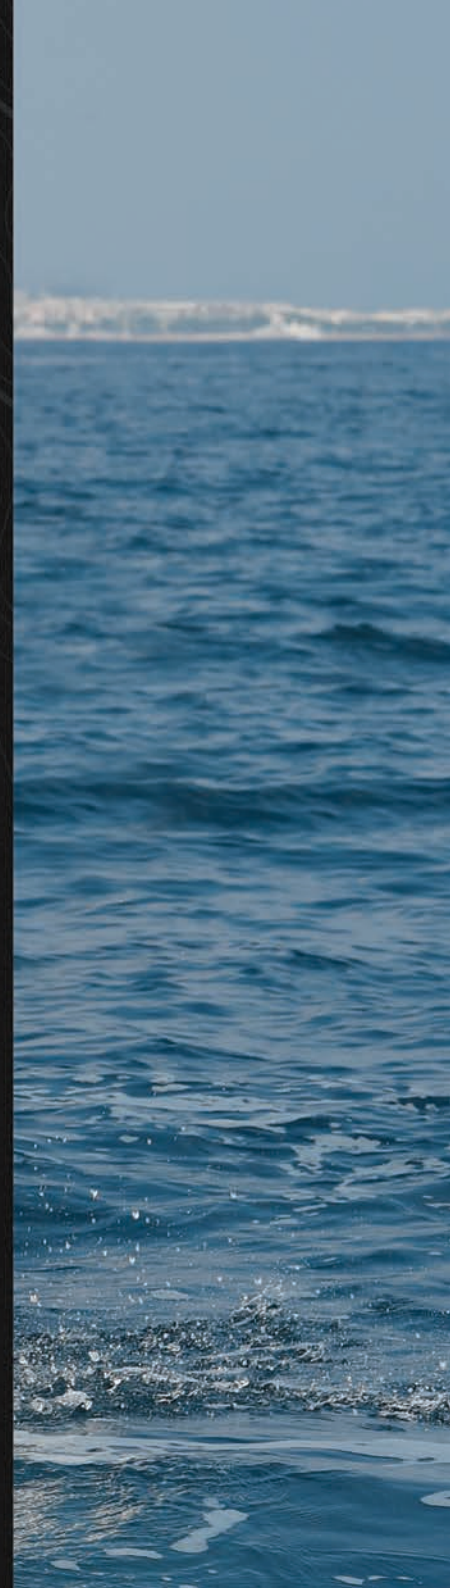

The **Avon Seasport Deluxe** replaces the Zodiac Yachtline Deluxe tender range as part of a program of continued improvement. **Avon Seasports** will benefit from the Zodiac Yachtline's years of refinement and will allow the Zodiac Nautic Group to more closely focus on the needs of our customers.

The **Avon Seasport Deluxe** focuses on convenience. The teak bow step and rear wing steps aid in hassle free boarding. In order to occupy as little space as possible on your yacht, Seasports features a compact lightweight design that does not compromise interior seating. All models feature comfortable ergonomic seating for all passengers.

However, interior seating was not compromised in the **Seasport Deluxe** series, and every **Seasport** features comfortable seating for all passengers. Conveniently located spacious lockers provide plentiful storage.

The three tube colors (grey, camel and marine blue) provide the opportunity to harmonize your tender with your yacht. These new tubes are made of Hypalon™ Neoprene™ fabric, which provides better resistance to UV radiation and abrasion. In addition, tubes are easily removed for maintenance and repair.

Aside from use as a tender, the **Seasport Deluxe** can also adapt to your recreational activities (waterskiing, tubing, etc.). **Seasports** feature great sea-keeping ability and plane quickly as a result of their patented Zodiac integrated trim tabs.

KEY FEATURES

- Teak covered bow step complete with LED lights provide safe boarding at the bow
- Teak covered lateral steps provide safe boarding at the stern of the boat
- Trim tabs facilitate quick planning of the boat
- Removable Hypalon™ Neoprene™ buoyancy tubes
- Internal fuel tank
- Easy access to storage locker
- New tube design with three color options

- 12-Volt plug (490)
- Battery switch
- Battery box
- Automatic bilge pump
- 2 paddles
- Foot pump
- Pressure gauge
- Repair kit
- Owner's manual

GRAND TENDER 850

ELEGANCE - INNOVATION

DESIGNED FOR THE LUXURY BOATER

This elegant boat, faithful to the British brand's iconic design, is the result of many years of innovation made alongside yacht captains to better address the need for simplicity of the luxury boater.

To improve security and convenience on its boats, **Avon Marine** has developed new connected technologies*, including a keyless smartlock that lets you start your boat with your fingerprint, smartphone or contactless card ; a virtual key system that lets you send temporary access to your boat from a distance, and Bluetooth Security bracelets for passengers that will instantly stop the engine and

propeller in case of emergency. **The Avon Grand Tender 850** is the first boat to benefit from these digital innovations.

Leading the boating industry in the Internet of Things (IoT) movement, the **GT 850** allows its owner to track the boat's activity online and in real time (geolocation, average speed, engine use), and receive alerts in case of an intrusion, theft hazard or unauthorized use (Geofencing).

The **Avon Grand Tender 850**, that is fully customizable, marks the return of the iconic brand **Avon** to the luxury RIB tender market.

*Subject to availability

KEY FEATURES NEW TECHNOLOGIES*

- Keyless smartlock that lets you start your boat with your fingerprint, smartphone or contactless card
- A virtual key system that lets you send temporary access to your boat from a distance
- Bluetooth Security bracelets for passengers that will instantly stop the engine and propeller in case of emergency
